

Jewellery / Wednesday, 4th August 2021 / Lot 510

LOT 510

An 18ct gold and diamond nine stone cluster ring, claw set with circular cut diamonds, the principal diamond mounted at the centre, London 1986, weight 3.9g, ring size approx J.

Estimate: £800 - £1,200

Condition Report

510. All diamonds appear well matched for colour. The central stone appears to be a largely clear stone under magnification. The surrounding diamonds do have one or two internal inclusions noticeable under magnification. Central diamond approx 6mm diameter. Ring is generally in good condition with minor scratching to the shank.

Unable to provide professional grading for diamonds.
