LOT 568

A gold ring, circa 1950, mounted with a rectangular step cut synthetic ruby between ridged shoulders, weight 20.5g, ring size approx W1/2, with a case.

Estimate: £450 - £550

Condition Report

568. The ruby has a small chip near one corner along the facet edge, another small chip to another corner.

A few nibbles to the facet edges of the table facet.

The underside of the gem impacted with dirt so would benefit from a clean.

The mount and shank have a few small dents and light scratches but is in generally good condition.
