

Jewellery / Wednesday, 4th August 2021 / Lot 682

## LOT 682

An 18ct gold, sapphire and diamond oval cluster ring, claw set with the oval cut sapphire within a surround of ten circular cut diamonds, London 1976, weight 5.1g, ring size approx N.

Estimate: £300 - £400

---

## Condition Report

682. Sapphire approx 0.9cm x 0.7cm.

Sapphire is of dark colour saturation, with colour zoning noticeable under light and with magnification.

There are a few nicks to the facet edges and a tiny one to the table facet noticeable without magnification.

The ring is fairly dirty and would benefit from a clean. The diamonds look to be fairly clear stones, bright and white.

Some minor wear to the back of the shank.
