LOT 100

Banksy - Monkey Queen, screen-print in colours on wove paper, circa 2003, editioned 533/750 in pencil, 47.5cm x 33cm, within an ebonized frame. Provenance: purchased by the vendor from Art Republic, Brighton circa 2004. Note: A certificate of authenticity issued by Pest Control accompanies this lot.

Estimate: £15,000 - £25,000

Condition Report

In good original condition. Very minor detritus trapped beneath glass but this does not appear to have caused any staining yet. Mount slightly obscures the last digit of the edition number. Examination out of the frame shows that the mount has been stuck to the backing creating a sandwich mount. It is difficult to establish whether the print is laid down or not because of this framing technique. The mount and backing do not appear to be archival and thus would warrant replacing. Frame has minor scuffs and scratches.
