Condition Report

525. The carbuncle garnet has one or two tiny surface nicks and one or two tiny internal inclusions. The rose cut diamonds are attractive white stones. The hinge pin and hook of the clasp are probably later additions - original intended use was as a pendant. Likely to be silver set as it is quite heavily tarnished. The glazed locket compartment in good condition. Approx. size of garnet 1.7cm x 1.5cm.
