LOT 704

A gold ring, mounted with an oval opal, detailed '18ct', weight 6.2g, ring size approx Q.

Estimate: £140 - £180

Condition Report

704. The opal has one or two surface marks. It is not possible to see the edge or the back of the opal. There are slight flaws to the casting of the mount at either side of the head of the ring. The gold mount has a few surface marks noticeable under magnification. As a result of wear and tear the shaping of decoration either side of the top of the ring is lacking clarity of definition. Suggested age ◆ circa 1910-30.
