

Collectors' Items, Works of Art and Light Fittings / Thu, 16th September 2021 / Lot 2571

LOT 2571

An EWC black enamelled table-top phonograph, with oak case, aluminium horn and a group of cylinders.

Estimate: £80 - £120

Condition Report

2571. Generally the phonograph appears to be quite clean and tidy. The mechanism winds up ok and does work but please be aware we give no guarantees to the working order of any Lot. The brass horn fitting does not look as well machined as the rest of the piece and could be replaced. Otherwise some slight dents to the horn.
