LOT 2501

After Michel Anguier - a Continental brown patinated cast bronze figure of Amphitrite, standing contrapposto with a sea creature at her feet and holding a lobster in one hand, height 37.5cm.

Estimate: £150 - £250

Condition Report

2501. The base has a hole to three of the corners, where it has been drilled to fix to a former base. The overall patina is generally good, however, there is an area of slight wear and scratching to her right side of back, as well as some light scratching to her torso and legs. There are a few very small surface dinks and some light surface wear to high points.
