Condition Report

1122. The watch is in generally good condition. The movement winds and adjusts smoothly and runs, but please be aware we give no guarantees to working order or reliability of any clock or watch.

The dial is very much as it looks in our online images, showing some typical degradation to luminous hour markers and hands, otherwise dial and hands in good original order with only typical minor marks and wear. Consigned by a local private collector so is likely to have been fairly recently serviced, but no service history paperwork etc.
