Condition Report

1073. The watch winds and adjusts smoothly and is currently running but please be aware we give no guarantees to working order or reliability of any clock or watch. The day and date features roll-over as they should.

Cosmetically, it is very much as it looks in the online images. The case has some typical surface scratches and wear commensurate with age. The dial has some wear with some pitting and minor scratches, obviously more visible under magnification. There is also some slight discolouration in places particularly around numerals.
