Condition Report

1174. Generally good condition. Case with typical light wear and scuffs, but no significant damage or repairs. Glass in good condition. the dial has some slight discolouration, but otherwise ok. The barometer appears to be working with response to 'plastic bag' test. The thermometer appears to be intact and red alcohol is present and can be read, but it is displaying 140 Fahrenheit, which seems a little high! This can be seen in the online images on our website.
