LOT 590

An 18ct gold, platinum, emerald and diamond five stone ring, claw set with three circular cut emeralds alternating with two circular cut diamonds, detailed '18ct Plat', weight 3.1g, ring size approx Q, with a case.

Estimate: £1,000 - £1,500

Condition Report

590 - Unfortunately we cannot provide a professional grading for the ring. The emeralds have a few internal inclusions and are of pale to medium colour saturation. They have a few scratches to the surface. One side emerald with a chip beside one claw.

The diamonds are fairly clear stones and appear to be bright and white.

The shank and setting in generally good condition.
