

Jewellery / Wed, 3rd November 2021 / Lot 614

LOT 614

An 18ct white gold, sapphire and diamond cluster ring, claw set with the principal oval cut sapphire within a surround of four circular cut sapphires, alternating with four pairs of circular cut diamonds, weight 4.1g, ring size approx N1/2, with a case.

Estimate: £200 - £300

Condition Report

614. Central sapphire approx 8mm x 6mm x 3mm.

The central sapphire is of dark colour saturation, of a greenish-blue colour under strong light. It has a small white surface reaching inclusion to one end near one claw.

The surrounding sapphires are of medium to dark colour saturation and a deep blue colour.

The diamonds appear to be white, bright stones with one or two inclusions.

Some minor thinning to the shank.

One claw appears much darker in colour to the others, perhaps re-tipped.

One or two others beginning to show signs of wear.
