

British and Continental Ceramics / Thu, 25th November 2021 / Lot 1337

LOT 1337

A Moorcroft Moonlit Blue pattern vase, circa 1925, impressed marks to base, height 8cm (restored).

Estimate: £100 - £200

Condition Report

1337 - A large chunk of the vase on one side has been broken off in the past and restored. This restoration is fairly obvious, with the join line between the broken piece and the main body noticeable and the colour blending not that well matched. This breakage is also evident from the interior where you can clearly see the pottery body where small fragments have been lost.
