LOT 1325

A large collection of 20th century English decorative ceramics, including a Spode Weigela & Lavender two-handled oval serving footed dish, a Wedgwood Clio pattern circular pot and cover, various floral decorated cups and saucers and six Crown Staffordshire decanter labels.

Condition Report

The 2 Spode 'Stafford Flowers' gratin dishes show some wear, otherwise the lot is pretty much in 'as new' condition overall with no cracks, chips or restoration. Some pieces still have their paper 'inspection' labels.

The 2 handled footed serving dish is 37cm long.

The 6 largest floral plates are 24cm diameter.

The largest globular vase is 12.5cm high.

We cannot measure everything but hopefully the above measurements can help you judge sizes.
