Condition Report

157. Previously cleaned and restored. Some craquelure throughout. Old varnish has discoloured, yellowed and dulled inconsistently. Some blooming too. Small protrusion near the bottom edge below the pig's head. UV examination highlights an area of overpainting below the pig and also to the trough. Other small areas of overpainting elsewhere, mostly to the barn. There is also some blistering to the bottom left corner. The frame has crumbling to the gilt along the inside edge and to extremities with loss of gilt in several areas.
