### Condition Report

2032. Please note, catalogue description has been changed to 'a near pair', rather than a pair. These are Louis XV period chairs, but both have had substantial restoration, including repairs to most joints, additional support added to the inside edge of seat rails, re-spliced leg to front leg of both chairs. The slightly paler chair has cracks to the top rail as well as tack holes from previous upholstery. Both have a stripped off surface to showframes.
