### Condition Report

2031. Condition and appearance is ok, but it has had some general changes and repairs over its life. The carving appears to be later and possibly a later drawer front. The base is probably a marriage and appears to have old elements, but no original to the top. The top has an old repaired split and there are overall small repairs to edges of trim, later handles fitted, front trim on undertier has been replaced and four of the dentil mouldings are missing.
