LOT 2920

A large Beshir carpet, Afghan, early 20th century, the charcoal field with angular medallions and profuse palmettes, within a scrolling palmette border, 611cm x 256cm (faults).

Estimate: £500 - £800

Condition Report

2920. Overall light surface wear to the pile and considerable fraying to the edges. Overall raised lines of wear, including some tears particularly to one side, as well as a considerable tear along an area that looks like it may have been previously repaired. It looks as though it may have been reduced in length but we think this may be a combination of repair and abrash.
