LOT 44

Edwin John Alexander - Botanical Seed Heads Study, late 19th/early 20th century watercolour with gouache, signed with initials, 31.5cm x 17cm, within a gilt frame.

Estimate: £150 - £250

Condition Report

44. The natural paper gives the work an age-toned look. Under a strong light some very pale foxing is apparent. There is also a small black mark to the bottom right which looks like a small blot of ink, this might be original. Possibly slightly faded.

Mount and backing are not archival. However, there is no evidence that this has damaged the work yet. The gilt frame has some scuffs and scratches to the extremities. Unexamined out of the frame.
