### LOT 2004

A late 19th century mahogany and brass bound campaign chest of two short and three long drawers, height 98cm, width 99cm, depth 47cm (alterations).

Estimate: £600 - £900

---

### Condition Report

2004. Distinct colour difference to the top and bottom halves. Sun fading to top surface. The bottom section has been fitted with a later mahogany top for use as a low table and there are four sizeable holes in the top of the bottom section to accommodate this alteration. Scratches and age-related marks in places. The escutcheons also appear to be a later alteration.
