### Condition Report

517. The cameo has some signs on wear, with a rubbed chip in front of the nose. The shank is currently a little distorted and needs straightening. It is also pushed down slightly on the sides. There is a partial hallmark reading  $\diamond 9 .375 \diamond$  to the top edge of the setting of the cameo. The mark to the side edge of the back of the shank could be  $\diamond \text{Birmingham 1912} \diamond$ . Would benefit from a professional clean.
