LOT 527

A gold and bloodstone signet ring, crest seal engraved, detailed '15ct', weight 4.7g, ring size approx U1/2.

Estimate: £100 - £150

Condition Report

527. The bloodstone intaglio has a couple of tiny surface nicks at the facet edge. It is rather grubby at the back and would benefit from professional cleaning. Tiny hair crack to the gold mount towards the back at the top, but the stone is however secure. Old acid test stain to the outside edge of the shank.
