

Jewellery / Wed, 19th January 2022 / Lot 604

LOT 604

A gold, sapphire and diamond cluster ring, mounted with a cushion cut diamond within a surround of six cushion cut sapphires and a diamond set border, detailed '18ct', weight 2.4g, ring size approx T1/2, with a case.

Estimate: £150 - £200

Condition Report

604. The central old cut diamond looks to be an attractive white stone with one or two none surface reaching inclusions towards one side. The sapphires are of medium colour saturation, most have a little wear to the table facet edges. One sapphire has a chip to the side of the edge. The surrounding diamonds have variation of cut, proportion and sizes. Top of ring a little worn. The ring is clean. Two of the culet points of the sapphires are a bit worn. Slight wear of the underside of the head of the ring. Shank has been resized in the past and is currently a little thin. 18ct mark is clear.
