LOT 638

An emerald and diamond ring, mounted with a row of three emeralds between two rows of three circular cut diamonds, unmarked, ring size approx M, with a case.

Estimate: £500 - £700

Condition Report

638. The ring is of fairly modern manufacture being a copy of a Victorian inspired design set with old cut gemstones. The three emeralds have wear and small chips to the table facet edges. Some variation of cut to the diamonds, which are generally old cut stones. The mount has a cast and matted finish. There is a small section let in at the back of the shank as a result of sizing.
