LOT 2502

Harold Parker - an early 20th century brown patinated cast bronze figure of a nude sleepwalking maiden, the base bearing cast signature, raised on a green serpentine plinth, height 67cm (repair to left wrist).

Estimate: £500 - £800

Condition Report

2502 - The damage to the wrist appears to be just a crack that runs through the top surface but not all the way round. It doesn't appear to have been repaired so there is no disturbance to the patina. Overall there are some minor surface hairline scratches and some minor surface bumps. Also small chips to edges of base.
