## Condition Report

2092. The rear edge of the gallery, as well as the sides, are quite sun faded, resulting in some cracks to the veneers. There is some loss to the edges of the rosettes and some overall marks and scuffs to the top. There are pieces of moulding missing to the border of right-hand door, to the lower edge just above the leg and to the right side. The lower stretcher is misshapen due to its fragile nature.
