LOT 505

A gold intaglio ring, probably Byzantine, circa 1000-1400 AD, the oval bezel seal engraved with a central figure representing Christ with smaller figures of a man and woman standing to each sides, weight 7.2g, ring size approx L1/2, together with a note detailing 'Ex Guilhou Collection'.

Estimate: £600 - £900

Condition Report

505. A few tiny cracks by the shoulders. Otherwise the ring is generally in good condition.

Provenance: the consignment is from a deceased estate. The ring is accompanied by a handwritten description of the ring with reference to ♦The Ex Guihou♦ Collection, unfortunately this note is not dated but is clearly of some age.
