LOT 623

A gold and turquoise pendant necklace, the drop carved in a floral design with a turquoise interwoven wirework surmount, fitted to a box link neckchain on a snap clasp, unmarked, weight excluding drop 8.7g.

Estimate: £200 - £300

Condition Report

623. The turquoise drop is in association with the top section of the front of the necklace. The turquoise drop is of light green colour saturation and is in good condition. Some variation of colour to the small turquoise.

Otherwise the piece is in fairly good condition. The clasp is probably a later replacement, with an acid test mark on the tongue. The box of the clasp is slightly distorted.
