## Condition Report

19. Generally in good original condition. Some minor surface dirt and light craquelure. Paint appears stable, small blemish to the top of the horse's leg. Old varnish has started to discolour and yellow. UV examination has highlighted small touches of overpainting around the edge of the mount presumably remedying some light scuffing caused by the mount. Very small touching-in to craquelure. Behind glass. Oak frame has woodworm, difficult to establish if live and so worth treating in case. Unexamined out of frame.
