## Condition Report

554. Diamonds are bright sparkling stones. Under 10x magnification, one or two of the surrounding diamonds have one or two inclusions. The principal diamond appears to be a fairly clear stone.

Principal diamond diameter approx 2.5mm.

Surrounding diamonds diameter approx 15mm.

The shoulder support and shank joins on one side have begun to weaken. The shank is only partially joined to the head of the ring. The shoulder above has split where it joins the shank.

Some thinning to the sides of the shank at the back of the ring.
