## Condition Report

1120. The case is in generally good order, except it is missing its hinged back door. Otherwise just typical scuffs, minor splits and nicks, and is a little bit dirty and dusty.

The dial has some typical scratches and wear, with some minor chips and losses.

Movement wind smoothly and starts to work, but please be aware we give no guarantees to working order or reliability of any clock or watch.

The striking mechanism works when the time hits the hour, but once it starts striking it continues to strike and does not stop so some work is required to return to full working order.
