

Glassware / Thursday, 10th March 2022 / Lot 1760

### LOT 1760

A Whitefriars Peacock Studio Range vase, 1969-70, designed by Peter Wheeler, decorated with random strapping against a kingfisher blue and twilight body, shape No. 8, height 17cm.

Estimate: £200 - £300

---

### Condition Report

Typical wear to foot which has a couple of pinhead sized digs, there is also a similar dig a couple of millimetres wide to the body between the foot and the strapping. Otherwise the vase is in good condition overall with minor typical surface scratches.

I would offer an opinion that the applied strapping on this example is very shallow and not as well executed as that on the other 2 examples in our auction this month.
