LOT 534

A gold, sapphire and diamond five stone ring, mounted with three cushion cut sapphires alternating with two cushion cut diamonds, detailed '18c', weight 3.4g, ring size approx Q.

Estimate: £400 - £600

Condition Report

534. Sapphires are of medium to dark colour saturation. Both sapphires have a long surface reaching inclusion. Central sapphire has an inclusion on one side showing iridescence under 10x loupe.

Diamonds are bright stones, but slightly draw colour. One diamond has a surface reaching inclusion on the edge of the table, under 10x loupe an inclusion running beneath the table and possibly a chip beneath one claw. The other diamond has an inclusion near a claw, but otherwise is fairly clear.

One or two claws beginning to show signs of wear. Some thinning to back of shank, now slightly misshapen as a result. Would benefit from a clean.

Central sapphire approx 5mm x 4mm. Diamonds approx 3.5mm x 3.5mm.
