LOT 660

A white gold, emerald and diamond cluster ring, claw set with the cut cornered rectangular step cut emerald within a surround of baguette and circular cut diamonds between diamond set shoulders, detailed '750', weight 5.6g, ring size approx O, with a World Gemological Institute Gemological Report stating emerald weight 3.49ct and total diamond weight 0.94ct.

Estimate: £3,000 - £3,500

Condition Report

Emerald has been oil treated to improve the appearance of colour and clarity.

The emerald has a small chip to one corner near one claw. There are a few tiny nicks to facet edges. The emerald has a couple of surface reaching inclusions, one running near the corner chip, the other on the opposite end on the short side of the emerald. The emerald has typical inclusions, long internal 'fracture looking' inclusions running across the width of the stone.

In general the ring is in 'as new' condition.
