### Condition Report

376. Decanter 1 - chip to neck rim and glue repair to side.

Decanter 2 - chip to bottom corner.

Decanter 3 - minor rim chips and chips to stopper terminal.

Locking action works as it should and clicks securely back into place.

The plate has typical wear and surface scratches, but generally good condition. The inscribed mark to one side is badly worn to the point you can only read the end of 'Sheffield' above 'The only hold fast patent', the two lines above are completely indistinct.
