LOT 545

A black onyx and diamond ring of oval form, collet set with the principal circular cut diamond on a black onyx ground within an outer border of rose cut diamonds, unmarked, ring size approx N1/2.

Condition Report

There are a couple of tiny nicks to the interior edge of the onyx where the central collet set diamond is situated.

One or two of the rose cut diamonds have surface reaching inclusions. The surrounding diamonds generally have one or two inclusions.

The surrounding diamonds slightly draw colour to grey. One shoulder diamond has a chip.

The principal diamond looks to be a fairly clear stone internally.

Some minor wear to the shank, possibly resized in the past. Otherwise in generally good condition.
