

Jewellery / Wednesday, 13th April 2022 / Lot 518

LOT 518

A gold and diamond nine stone cluster ring, early 20th century, mounted with cushion cut diamonds, detailed '18ct', weight 1.9g, ring size approx K.

Estimate: £180 - £220

Condition Report

Diamonds slightly draw colour to grey.

Overall the diamonds look to be fairly clear stones internally, though one has a green coloured inclusion, this is noticeable without magnification.

Inscribed to the shank '14th Dec 1914 E.T.'

There is a small crack where front panel meets shank (can be seen in image 4 on our website).

Minor wear to the back of the shank.

Would benefit from a clean.
