## LOT 599

A gold, platinum and diamond ring, claw set with the principal cushion cut diamond between diamond two stone shoulders, detailed '18ct PLAT', weight 2.3g, ring size approx P.

Estimate: £400 - £500

## Condition Report

Principal diamond appears to be a bright white stone. Under 10x magnification it has an inclusion directly below the table facet which does break the surface of the stone. The girdle has a few tiny nicks.

One of the shoulder diamonds has a sizeable chip next to the table. Side diamonds appear to be fairly clear stones internally.

Typical light surface scratching to setting/shank.
