LOT 510

A gold, ruby and diamond three stone ring, claw set with the cushion cut ruby between two cushion cut diamonds, detailed '18ct', weight 3.1g, ring size approx P, with a Gem & Pearl Laboratory Report stating ruby dimensions 6.6mm x 5.9mm x 1.7mm.

Condition Report

There is a fracture to one corner of the ruby. If the ruby was unset it is likely that this would break away. The ruby otherwise has a few internal inclusions.

The diamonds look to be attractive white stones. One has one or two tiny inclusions. The claws particularly to the ruby are rather worn.

Suggested age – early 20th century.
