Condition Report

Sapphire and diamond cluster pendant – the sapphire is of medium colour saturation, the surrounding rose cut diamonds have slight variation of cut and have a few inclusions. Evidence of work at the back, was possibly previously an earring drop or part of a clasp.

Red enamelled heart pendant – a few chips to the red enamel to the front, seed pearl a little grey, a few shallow dents at the back, small split to one side.

Seed pearl and red paste pendant – one seed pearl missing at the bottom, otherwise is good condition.

Heart pendant – in good condition.

All pieces likely date from the Edwardian period.
