LOT 621

A gold, lapis lazuli and diamond ring, claw set with the oval lapis lazuli between circular cut diamond set three stone shoulders, indistinct mark, weight 3g, ring size approx M1/2.

Estimate: £50 - £70

Condition Report

The lapis lazuli has one or two old surface nicks, with attractive iron pyrites inclusions.

Diamonds look to be slightly drawing colour but are very deep in their settings so hard to examine.

Claws in good condition.

Mark within shank possibly 9c but hard to ascertain exactly. Test mark would suggest 9ct gold. Lapis lazuli approx. 9mm x 11mm.

Suggested age – mid-20th century.

Would benefit from cleaning.
