### LOT 659

A Victorian 15ct gold, emerald and green doublet five stone ring with scroll and beaded decoration to the sides of the mount and with pierced scrolling shoulders, Birmingham 1865, weight 1.8g, ring size approx I.

Estimate: £140 - £180

---

### Condition Report

It is likely that the two end stones are emeralds and the other three are likely to be doublets.

The gemstones generally have a few inclusions, some of which are surface reaching.

The claws are generally rather worn and only about half of the claws remain.

There is a sizing join between the '15' and the front of the anchor hallmark, also the mark on the left of the '15' has been obscured by sizing.
