LOT 701

An Edwardian gold, platinum, sapphire and diamond cluster ring, mounted with the principal oval cut sapphire within a surround of four oval cut sapphires, alternating with four smaller cushion cut diamonds, detailed '18ct Plat', weight 5g, ring size approx P1/2.

Estimate: £600 - £900

Condition Report

The sapphires are of medium colour saturation, with some variation of colour saturation.

One or two surface nicks to the table facet edges.

Diamonds have some variation of old cut but are generally attractive white stones and look to be fairly clear.

Claw tips currently sound but setting beginning to show signs of wear.

Size of top of ring approx. 20mm x 15mm.
