LOT 618

A gold, platinum, sapphire and diamond oval cluster ring, collet set with a cushion cut sapphire within a surround of circular cut diamonds, detailed '18ct PLAT', weight 3.5g, ring size approx K, with a case.

Estimate: £100 - £150

Condition Report

Sapphire of medium to dark colour saturation. Abrasion generally to facet edges. A few inclusions noticeable under 10x magnification.

Ring is dirty but the diamonds look to be fairly bright white stones and largely clear internally.

There is a missing section of pierced decoration to the side of the ring head which is no longer attaching the head of the ring to the shoulder, leaving a noticeable gap. This would need repair to ensure the long term security of the ring.
