LOT 686

A gold, platinum, sapphire and diamond nine stone cluster ring, circa 1920, collet set with a cushion cut sapphire within a surround of cushion cut diamonds between diamond single stone shoulders, detailed '18ct PLAT', weight 2.4g, ring size approx L1/2, with a case.

Estimate: £250 - £350

Condition Report

Sapphire is of medium to pale colour saturation. A small scratch to the sapphire running from the setting edge towards the table, only really noticeable under magnification. One or two inclusions.

Diamonds slightly draw colour and have one or two inclusions.

Very minor wear to back of shank. Typical slight surface scratching to setting/shank.

Overall in good condition and an attractive ring, with what is likely to be its original case.
