LOT 606

A gold, platinum and diamond cluster ring, mounted with the principal circular cut diamond within a surround of eight smaller circular cut diamonds, detailed '18ct & Pt', weight 2.5g, ring size approx N1/2.

Estimate: £120 - £180

Condition Report

The principal diamond looks to be an attractive bright white stone, with one or two tiny inclusions noticeable under 10x magnification.

The surrounding diamonds look to slightly draw colour and have one or two tiny inclusions.

Very minor wear to the sides of the back of the shank, perhaps where it has been worn against other rings.

In generally good condition overall. Would benefit from a clean.
