

Jewellery / Wednesday, 13th April 2022 / Lot 587

LOT 587

A gold, ruby and diamond cluster ring, claw set with the principal oval cut ruby within a surround of eight circular cut rubies and an outer border of eight circular cut diamonds, indistinct mark, weight 7.6g, ring size approx P1/2.

Estimate: £450 - £550

Condition Report

Rubies are of medium to dark colour saturation.

The central ruby has an internal fracture which is surface reaching on one side of the stone, there is a section of stone lacking from the girdle on this side where the fracture is located. The fracture is visible without magnification.

The surrounding rubies have a few inclusions, two or three have surface reaching inclusions which are breaking the surface of the stones across the table facets.

The diamonds look to be bright white stones, with one or two inclusions visible under magnification.

Slight bulge to one side of the shank where the indistinct mark has been stamped.
