## LOT 525

A gold and smoky quartz pendant brooch, mid-19th century, in the form of a cross with thistle decoration, mounted with circular and oval cut smoky quartzes, unmarked, weight 12.8g, length 5.5cm.

Estimate: £400 - £500

## Condition Report

Some claws are damaged to the settings of most of the stones. Some claws are beginning to open up and need to be made more secure. The setting to the smoky quartz near to the hook of the clasp has been bent and partly straightened back in the past. There is some excess solder by the hook of the clasp. Two thistle motif terminals are slightly bent. The brooch would benefit from the attention of a jewellery repairer to straighten it out.
