LOT 505

A platinum and diamond single stone ring, claw set with a circular cut diamond, detailed 'Platinum', ring size approx M, with a case.

Estimate: £2,500 - £3,500

Condition Report

Unfortunately we are unable to provide a professional grading for the diamond. Under a 10x loupe the diamond face-up has only one or two tiny inclusions noticeable under the table, otherwise appearing to be a largely clear stone internally. The face-up appearance is bright white and sparking. From the side, the diamond appears to slightly draw colour.

Diamond weight approx. 1.50ct

The ring mount is in good condition.
